

Abrasive Caps and Abrasive Cap Carriers for Podiatry and Foot Care

Smart Tool Solutions at an Attractive Price

In the world of industrial precision machining, we are considered one of the leading international partners for innovative and sophisticated tool solutions.

Renowned companies of different industries appreciate our sound manufacturing and development expertise.

In our customers' process development, we act as consultants and idea generators. In close dialogue we develop intelligent and high performance tool solutions at attractive conditions.

⊕ **German manufacturing expertise**

⊕ **agile product development**

⊕ **attractive price-performance ratio**

Our portfolio ranges from tools for surface processing and cutting operations, to screwdriving and torque technology, to rotating tools and instruments – also for use in podiatry and foot care.

⊕ **certified quality management system according to DIN EN ISO 9001:2015**

⊕ **certified environmental management system according to DIN EN ISO 14001:2015**

Our tools' sound quality guarantees maximum security and stability to our customers' manufacturing processes.

We ensure a consistently high level of our products by a strictly implemented quality management as part of our integrated management system. In doing so we value the responsible use of our resources and strive for a sustainable environmental and energy balance.

Proximity to our customers enables us to participate actively in the economic and technological development of our target industries. For these purposes we are actively involved in trade associations.

We also take part in committees for standardization, product safety, occupational health and safety, as well as environmental protection.

Efficient and Hygienic Abrasive Caps with Excellent Price-Performance Ratio

Abrasive caps for podiatry and foot care ensure efficient and gentle treatment. Compared to conventional and other rotating instruments for the removal of cornea, podiatry grinding caps offer several advantages:

- ⊕ maximum hygiene due to single use
- ⊕ comfortable application due to low contact pressure
- ⊕ safe and gentle treatment

»Working faster and more energy-saving: I bet on HARDY caps and even save money.«

Choose from different shapes and grains – from extra coarse to fine – to always get the perfect result for your particular application.

Use the corresponding HARDY abrasive cap carrier – tight tolerances guarantee a perfect hold during the application and allow easy mounting and dismounting.

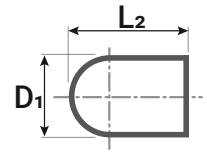

HARDY abrasive cap carriers are suitable for all commercially available handpieces with shaft 2.35 mm.

The abrasive cap carriers can be cleaned and reconditioned easily – this saves resources and budget.

You need a different color for your abrasive cap? – Please contact us!

Abrasive Caps

Shape	Description	D ₁ mm	L ₂ mm	Grit Size				Packaging Unit*
				A60 (extra coarse)	A80 (coarse)	A150 (medium)	A240 (fine)
